DR. JOHN BULL'S COMPOUND

The Latest and Most Important Dis-

covery of the 19th Century. TO MAN'S NAME IS MORE INTIMATELY CONnected with the history of the Materia Medica of the nted States, or more favorably known as the pioneer of medical discovery, than that of Dr. JOHN BULL, of Louisville, Ky. His inimitable preparation of Sarsapa-rilla, has long stood at the head of the various compounds of that valuable drug His Compound Pectoral of Wild Cherry has become a household word throughout the West and South, and his Worm Lozenges, in less than a year after their introduction, attained a reputation as wide spread as the continent of North America. But the crowning glory of his life remains to be attained in his latest discovery, or rather combination, for he does not claim to have been the discoverer of CEDRON, which is the basis of the bitters now offered to the public. That honor belongs to the native inhabitants of Central America, to whom its virtues have been known for more than two nundred years. Armed with it, the inclan bids denance to the most deadly malaria, and handles without FOUNDRY AND STOVE WORKS, fear the most venomous serpents. It is a belief with them that while there is a breath left in the body the Cedron is

potent to cure, no matter what the disease may be-While Dr. Bull is not prepared to endorse this extravagant pretension, he is nevertheless satisfied from a thorough examination of the evidences relating to its virtues, that, as a remedy and preventive for all diseases arising from exposure either to changes of weather and chmate, or to the miasmatic influences, it stands without a rival STOVES, HOLLOW-WARE, &c. and justly deserves the reputation it has long enjoyed in Central America and the West Indies. In

DYSPEPSIA

And its attendant train of sympsoms, it acts more like a charm than a medicine. There is nothing in the whole range of maeeria medica that can for a moment bear a comparison with it in this disease. A full account of this wonderful plant may be found in the 11th edition of the U.S. Dispensatory, pages 1587 and A series of experiments, in which Dr Bull has been for

years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combination of Cedron with other approved tonics, the whole preserved in the best quality of copper-distilled Bourbon Whisky, which he is confident has no equal in He might furnish a volume of certificates, but the pub lic have long since learned to estimate such things at

their true value. The safest plan is for every one to test for himself the virtues of a new medicine. Give the Cedron Bitters One trial and you will never use any other.

It is not necessary to publish a long list of the diseases for which the Cedron bitters are a specific. In all diseases of the Stomach, Bowels, Liver or kidneys; In all affections of the Brain depending upon perangement of the Stomach or Bowels; In Gout, Rheumatism and Neuralgia; and in Fever and Ague, It is destined to supersede all other remedies. It not only cures all these diseases, but it prevents them.

A wine-glass full of the Bitters taken an hour before each meal will obviate the ill effects of the most unhealtey climate, and screen the person taking it against diseases under the most trying exposure. Dr JOHN BULL'S Principal Office, Fifth street, Sold wholesale and Retail by
